Precision Medical Products, Inc. Receives Supplier of the Year Award from Meridian Medical Technologies, Inc.

Denver, Pennsylvania -- Precision Medical Products, Inc., has been named supplier of the year by Meridian Medical Technologies, Inc. This award is based on selection criteria such as supplier performance rating, quality history, late Supplier Correction Action Request's, delivery timeliness, problem resolution, customer and technical service and support.

"We are honored to be presented with this award," said Douglas Yocom, president, Precision Medical Products, Inc. "Meridian Medical Technologies has been a valued customer of Precision Medical Products for a long time. Together we have formed a relationship that is built on trust, quality, and communication that has resulted in the manufacturing of their world-class medical devices that have touched the lives of millions, he explained."

"Precision Medical Products has shipped us over 25 million powerpak assemblies since March 2006 without one rejection," said Mark Morse, senior director, logistics, Meridian Medical Technologies, Inc. "In addition, they have shipped us over 23 million needle hub sheath assemblies since March of 2007 without one rejection," Morse explained.
