PRECISION
 MEDICAL PRODUCTS, INC.

The tympanic thermometer, we manufactured it from start to finish – utilizing our latest capability, a patent-pending process of simultaneous molding and trimming of plastic to thin film. We're Precision Medical Products Inc., with some of the sharpest minds in the industry and housing the most OEM manufacturer technology under one roof. From an idea on paper to a final product wrapped in packaging, ready to ship, we're the one choice for one-source service.
